PROFILE

I am a passionate developer specializing in HTML, CSS, JavaScript, Python, and Teachable Machine for ML model training. My primary interest lies in cybersecurity and AI, where I focus on building secure systems and exploring ethical hacking. I enjoy competitive coding on LeetCode and GeeksforGeeks and continuously improve my problem-solving skills.

PROJECTS

1. AI-Powered Virtual Mouse

- Developed a hands-free virtual mouse using TensorFlow and Teachable Machine, enabling cursor control via hand gestures.
- Implemented front-end with HTML, CSS, and JavaScript for a responsive user interface.
